

By combining global communication platforms with structured file organization, I maintain a balanced approach to my academic progress and daily development.

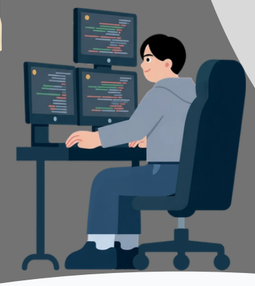

My Personal Learning Environment is a comprehensive system designed to enhance my English proficiency and technical development.

PERSONAL LEARNING ENVIROMENT

The applications integrated into my learning environment are essential to my progress because they create a cohesive ecosystem that supports both my technical development and my English proficiency

file organization environment

Google Drive

OneDrive

MEGA

communication environments

Communication apps are crucial for my language learning journey, as they bridge the gap between study and realworld application. These platforms allow me to maintain contact with people from other countries

tools for learning

DeepL

duolingo

Gemini

learning activities

Diverse learning activities such as singing to enhance pronunciation, reading to improve comprehension, and solving crosswords to build vocabulary, all serving as practical methods to strengthen my English language skills

Task management tools

Office

GitHub

Visual Studio Code
